INFORMATION AND ACKNOWLEDGEMENT OF LEAD-BASED PAINT AND/OR LEAD-BASED PAINT HAZARDS, TOXIC MOLD/FUNGI/MOISTURE HAZARDS

Warning Statements

1. Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.
2. Every purchaser of any interest in residential real property on which a residential dwelling was built is notified that said property may or may not present exposure to Toxic Mold and or other microscopic organisms. Depending on where you live, your risk could be higher on some materials than others. Toxic Mold Poisoning or Stachybotrys can cause, but is not limited to, some or all of the following: nasal and sinus congestion, cough, wheezing or other breathing difficulties, sore/hoarse throat, skin and eye irritation, upper respiratory infections including sinus. The seller of any interest in residential real property is asked to provide the buyer with any information on mold or mold hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known mold or fungi hazards or moisture problems. A risk assessment or inspection for possible hazards or moisture problems is recommended prior to purchase.
